

eZ Publish 5.x Developer Documentation

Welcome to the Technical Documentation of the eZ Publish Platform 5.x

This documentation covers functionality in eZ Publish 5.x, a hybrid version of *eZ Publish* CMS containing eZ Publish 4.x "Legacy", and "Platform" a new generation of eZ Publish on top of *Symfony 2* Full stack framework. For further reading on the difference between *Platform* and *legacy*, and how they are both bundled in eZ Publish 5.x versions, see [eZ Publish 5 Architecture - Introduction & Overview](#).
