

# Manual Installation Guides

## Introduction

Hi! You are about to install eZ Platform on your machine and this guide is here to make sure that the whole process of preparation and installation is fast and easy. This guide consists of a three paths that differ slightly; you should choose the one that meets your operating system:

Microsoft Windows, Mac OS X or other Unix-Based Systems.

Installation guides can be followed with any eZ Symfony distribution, you can find a list of available distributions from eZ in a table below:

Type	Archive	License	GIT / Composer
eZ Platform - "clean"	<a href="http://share.ez.no/downloads/downloads">share.ez.no/downloads/downloads</a>	GPL	<a href="#">ezsystems/ezplatform (INSTALL.md)</a>
eZ Platform - "demo"	<i>Available via Git / Composer</i>	GPL	<a href="#">ezsystems/ezplatform-demo</a>
eZ Platform Enterprise Edition - "clean"	<a href="http://support.ez.no/Downloads">support.ez.no/Downloads</a>	BUL ( <i>requires eZ Enterprise subscription</i> )	<a href="#">ezsystems/ezstudio (INSTALL.md)</a>
eZ Platform Enterprise Edition - "demo"	<a href="http://support.ez.no/Downloads">support.ez.no/Downloads</a>	BUL ( <i>requires eZ Enterprise subscription</i> )	<a href="#">ezsystems/ezstudio-demo</a>
