

ParentContentTypeLimitation

A Limitation to specify if the User has access to Content whose parent Location contains a specific Content Type, used by `content/create`.

This limitation combined with `ContentTypeLimitation` allows you to define business rules like allowing users to create "Blog Post" within a "Blog." If you also combine it with `ParentOwnerLimitation`, you effectively limit access to create Blog Posts in the users' own Blogs.

Identifier	ParentClass
Value Class	eZ\Publish\API\Repository\Values\User\Limitation\ParentContentTypeLimitation
Type Class	eZ\Publish\Core\Limitation\ParentContentTypeLimitationType
Criterion used	n/a
Role Limitation	no

Possible values

Value	UI value	Description
<ContentType_id>	<ContentType_name>	All valid Content Type ids can be set as value(s)
